

1,000 ROUTED OUT OF HOMES BY STABLE FIRE

Incidentally, 100 in Restaurant
Didn't Wait to "Pay"—
Three Horses Perish.

Fire in a stable at No. 9 Extra place, a blind alley in First street, just north of the Bowery, routed families from a dozen tenements, sleepers from the Arcade lodging-house at No. 317 Bowery, and gave a crowd of about one hundred men a chance to run from Straub's restaurant, on the ground floor of the Arcade, without settling bills. Before the fire was discovered it was burning in all parts of the stable. The tenements seemed in danger before the arrival of the firemen, and six of them were vacated. It is estimated that more than one thousand Italians fled to the street, many carrying their household goods. Then the men in the restaurant took flight and stamped over the cashier, who tried to hold them. Next the lodgers upstairs ran to the street, some minus wearing apparel. The flames were kept from the tenements and lodging houses, but leaped over to the roofs of five two-story and attic houses in Second street. These were saved by the firemen. The stable was totally destroyed and three horses were burned to death.

Renard

The Renard Millinery productions, widely known, require now a very great increase of store facilities for proper showing.

The apparent good-will of a large clientele warrants also the intrusion of a department of Gowns, Costumes, Evening Coats and Waists, in which happily distinctive specialties appeal with equal success to popular favor.

Hence the coming occupancy by Renard of the entire building formerly known as McCutcheon's Linen Store.

We extend to old patrons and new a cordial invitation to view the choice collection of Millinery and Outer-garments now being arranged for the opening day.

CALLS PHYSICIAN'S BURGLAR "DREAM"

Dr. Webster Says Fellow Tried
to Get in Window—
Police Laugh.

Dr. Lloyd Webster, a dentist, whose office and home is on the ground floor of the Evelyn apartment-house, No. 107 West Seventy-eighth street, northwest corner of Columbus avenue, reported to the police of the West Sixty-eighth street station to-day that a burglar had attempted to get into his place during the morning hours through a window overlooking the street. "He saw the man plainly," said the dentist. "He leaped to the pavement and sprinted through Seventy-eighth street, going toward Amsterdam avenue, when made for him."

FEWER DIRTY DOLLARS NOW.

The School of Commerce, Accounts and Finance of New York University opened its eighth year last evening with the largest enrollment in its history. Dean Johnson spoke of the growing demand for educated business men in the United States. He said in part: "There is more conscience in business to-day than there was thirty-five years ago, and the dollars which are flowing into our pocket and into accounts are cleaner than they ever were before. I am not going to stop to defend President Roosevelt, but I do want to impress upon you this truth: The United States is too big and its prosperity too well grounded to be used by any one man or group of men."

GROCER ENDS HIS LIFE WITH BULLET

Hasse Found Dead in Store by
Milk Wagon Driver, Pistol
Beside Him.

When Jerry Sullivan, a milk wagon driver, went to the grocery store of Bruno Hasse, at No. 432 Pearl street, before daylight to-day he saw a man lying on the floor in the rear. Sullivan, who has a key to the back door, went in and found Hasse dead, a bullet hole in his left temple. The milkman called Policeman McAnulty, and Dr. Norton came from the Hudson Street Hospital. Hasse had been dead several hours. A revolver, with one empty cartridge, lay near him.

The naphtha loosens the dirt.
The soap cleans.

That is the explanation of the way P. & G. (Procter & Gamble) Naphtha Soap acts.

The naphtha, by loosening the dirt, makes it easy for the soap to do the work it is intended to do—cleanse.

P. & G. Naphtha Soap

would clean just as thoroughly as it does, if it contained no naphtha at all; but it would take more time and more work.

Naphtha and good soap make an ideal combination—a combination that does away with half the work and practically all the discomfort of wash day, and makes it possible for a woman to do as much work in 4 or 5 hours as now requires twice that long. Boiling of clothes, with all its attendant annoyances, is a thing of the past with women who use P. & G. Naphtha Soap. So is nine-tenths of the hard work over the washboard.

P. & G. Naphtha Soap is for sale in almost every grocery in this city. The price is 5 cents a cake.
